

Mayor Bartlett, and Tulsa City Councilors:

The Smart Growth Tulsa Coalition is pleased to provide you with the to-date results of our online Vision 2025 Renewal Survey, as promised.

As of yesterday, November 9<sup>th</sup>, 2015, 565 people had completed and submitted the results of their survey, providing you with insightful information about their individual preferences and priorities for ballot consideration of the proposed Vision 2025 extension / renewal.

We are attaching four documents for your review and consideration:

1. Press Release Vision Renewal Results, including the top 10 projects, and some observations and interpretations offered for your consideration.
2. Appendix One – A summary of the projects receiving the most votes, in descending order.
3. Appendix Two – A summary of the projects receiving the most votes, listed by category, in descending order.
4. Appendix Three – Survey participant remarks
5. Appendix Four – Rationale, a few remarks about why we published the survey and what we hope to achieve by providing you and the media with the results.

We are confident that you, as elected officials will benefit immensely by giving serious consideration to the dreams and aspirations for Tulsa shared by our survey participants. We encourage each of you to publically thank those who took the time to complete the survey in order to help instill confidence and restore trust, especially among those who remain cynical or skeptical about government in general.

Like many others, we at SGTC believe the successful passage of a Vision 2025 Renewal package will be crucial to ensuring that we build upon the present momentum and set the stage for future growth and prosperity.

Thanks for your consideration, and please let us know if you have any questions as we are considering a second round of the survey, working from a shortened list of projects and funding requests.

Bill Leighty, Executive Director  
Smart Growth Tulsa Coalition
